- the updated RMP contains information required by the conditions of approval.

Accordingly, as nominee of the Planning Secretary, I approve the RMP (Revision 0.06). You are reminded that if there are any inconsistencies between the updated RMP and the conditions of approval, the conditions prevail. Please ensure you make the document publicly available on the project website at the earliest convenience. Please ensure you make the document publicly available on the project website at the earliest convenience.

The Department notes your commitment to NPWS to incorporate updated post-clearing monitoring in the partial clearing zones in the next revision of the RMP. You are required to submit this to the Department by no later than 31 August 2025.
